Video: Changing Worlds in the Atlas Mountains

This short documentary was filmed in Morocco, primarily at the Education for All boarding houses in Asni and on location in Atlas villages and Marrakech. It's a universal story of hope, love and support as showcased by an inspiring NGO in rural Morocco which helps teenage girls access education.

Thanks to the work of British- and Moroccan-registered charity Education for All founded by Mike McHugo MBE of Kasbah du Toubkal eco lodge, over the last 10 years scores of girls who otherwise wouldn't have continued their studies beyond the most basic of primary schooling, have been able to access a secondary education. Typically, girls who stay in the remote rural villages of the Atlas Mountains are obliged to marry as early as at the age of 13. By giving girls and young women this support it makes a dramatic difference to the wellbeing of our world — for all of us.
